Mian Channu, Punjab | alishay03@gmail.com | +92 313 4083583 | github.com/alisha-tech21 | linkedin.com/in/alisha-asmat

PROFESSIONAL SUMMARY

Aspiring Full Stack Web Developer specializing in the MERN Stack (MongoDB, Express.js, React.js, Node.js) with hands-on experience building web applications, RESTful APIs, authentication systems, and user-friendly interfaces through personal and academic projects. Proficient in database management and backend-frontend integration. Passionate about building high-performance and user-focused web solutions while continuously learning modern web technologies.

EDUCATION

BS Information Technology | Government College University Faisalabad (GCUF)

2022 – 2026

CGPA: 3.6 / 4.0 (Up to 7th Semester)

Final Year Project: TrendMesh – Smart Social Media Scheduling & Management System

- Developed an AI-powered automation platform to schedule and manage multi-platform social media workflows efficiently.

TECHNICAL SKILLS

Frontend: HTML, CSS, JavaScript, React.js, Tailwind CSS

Backend: Node.js, Express.js

Database: MongoDB, MongoDB Atlas

Authentication & Security: JWT Authentication, OTP Verification, User Whitelisting

APIs: REST APIs, Facebook Graph API, Instagram Graph API, TikTok API, GitHub API

Tools & Technologies: Git, GitHub, Postman, Node-Cron, Vercel, Railway

PROJECTS

TrendMesh – Smart Social Media Scheduling & Management Platform | [GitHub](#)

Jan 2026 – May 2026

Tech Stack: React.js, Node.js, Express.js, MongoDB, Node-Cron, Gemini API

Full-stack automation platform for managing and scheduling multi-platform social media content.

- Built a centralized dashboard to simplify multi-platform content management
- Automated content publishing workflows using Node-Cron, reducing manual posting effort
- Integrated Facebook, Instagram, and TikTok APIs for seamless auto-posting
- Developed scalable RESTful APIs for content management and scheduling, improving system efficiency
- Integrated Gemini AI for automated caption and hashtag generation, accelerating content creation

DevHub – Automated Developer Portfolio Builder | [GitHub](#) | [Live Demo](#)

May 2026 – June 2026

Tech Stack: React.js, Node.js, Express.js, MongoDB Atlas, Tailwind CSS

Full-stack platform for developer portfolios and blogging.

- Built a dynamic developer portfolio generator using GitHub API integration, streamlining portfolio creation
- Implemented secure authentication using JWT and OTP verification, ensuring secure user access
- Developed blog creation, editing, and search functionality, improving content management
- Designed responsive UI using React.js and Tailwind CSS, enhancing usability across devices
- Built RESTful APIs for user and content management, supporting scalable operations
- Deployed frontend on Vercel and backend on Railway, ensuring reliable application access

CERTIFICATIONS & ACHIEVEMENTS

- Coding Competition** – Participant (Apr 2025)
- Final Year Project Exhibition** – Participant (May 2026)
